The outside advertising and sitting area consists of transparent polycarbonate sheets. Polycarbonate sheets have exceptional impact strength, are scratch, fire and UV resistant. The pivoting joints are aluminium die cast and are maintenance free!

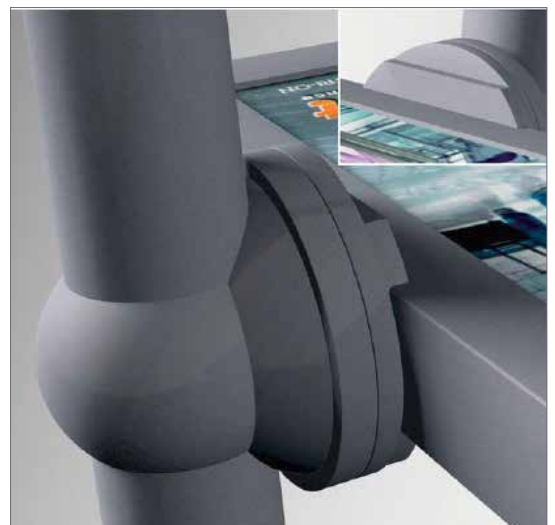

MultiSits are suitable for short or long term advertising campaigns. MultiSits are suitable for indoor or outdoor advertising. MultiSits can be configured to fold in both directions or in one direction depending on the application. 1kg force will hold the seat down and when removed will gently ease back to the vertical resting position.
