

Transit Collection

The Transit Collection is characterized by extra heavy duty construction for high traffic areas such as transit stops and playfields. The benches are available with back, a full contour bench and backless styles. These durable seats blend well with our 4 x 4 Transit picnic tables and Metro or Tradition trash receptacles.

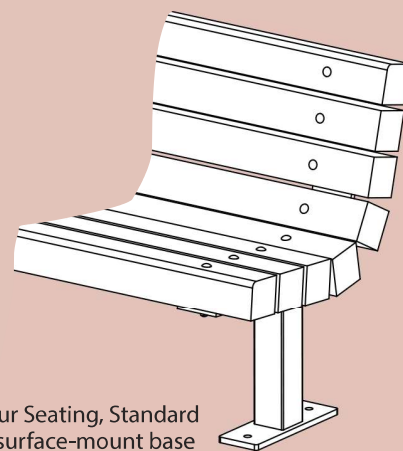

- Strong 1/2" x 4" steel framework, 3" steel tube legs
- Available in Ipe, Douglas Fir, Red Cedar and recycled plastic lumber
- Transit Collection benches are available with surface or embed mountings
- Benches feature 4" x 4" wood or recycled plastic seat slats for extra strength.

Wood

Wood Elements may be fabricated from any of the many available wood species. The woods most often specified are vertical grain Douglas Fir, Western Red Cedar, and Ipe - a hardwood that works well for interior or exterior use.

Recycled Plastic

Recycled plastic offers an environmentally-friendly alternative to wood. It is practically maintenance free and will sustain its color and appearance for years. Our recycled plastic is made from purified high density polyethylene and includes UV inhibitors to reduce fading. It will not rot, warp, splinter or crack.

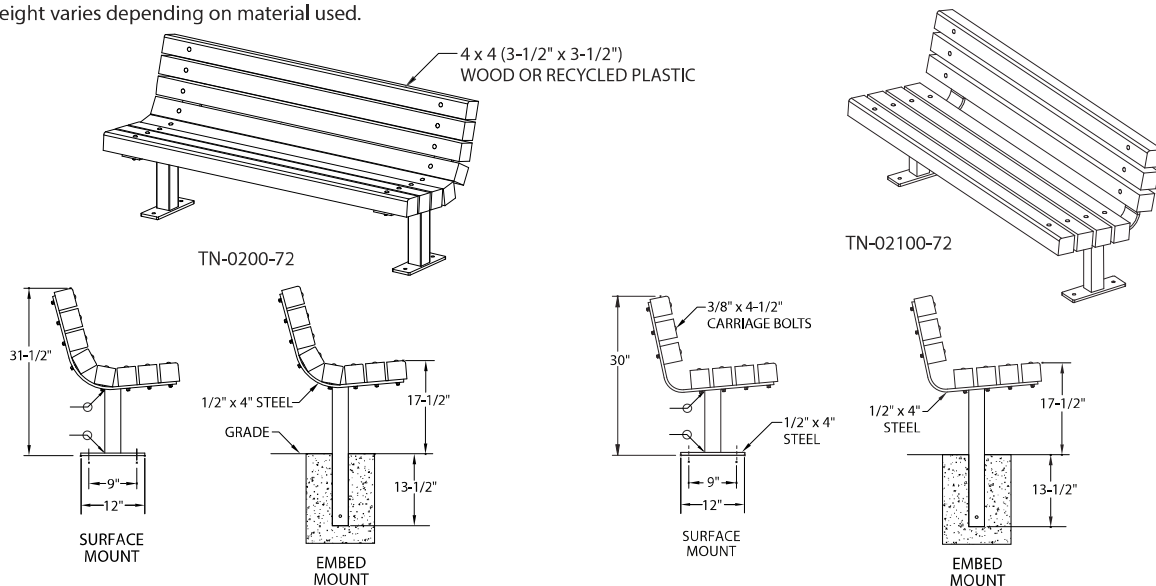

Contour Seating, Standard surface-mount base
