CityScape H-Balcony Planters

Satu Bumi's CityScape range of H-Balcony concrete (GRC) planters has been specifically engineered for balconies where space is tight, weight is an issue and built-in drainage plumbing is essential. These long-life and robust planters are water, fire and UV resistant making them an excellent option for apartment, office and hotel balconies.

The manufacturing process for the CityScape concrete (GRC) planters includes a unique chemical treatment for the waterproofing, protection and improvement of the concrete in conjunction with a fibre matrix wall construction methodology that provides enhanced flexural and tensile strength. The result is a high-grade concrete product with excellent strength, water impermeability and aesthetic appearance.

The CityScape H-Balcony Planters have been specifically designed with two unique characteristics:

- **H-Shaped Raised Floor**
A unique H-shaped raised floor reduces the internal size of the planter which in turn reduces the amount of potting material required.
- **Hidden Drainage Cavity**
A hidden cavity in conjunction with the option of open ends provides a convenient design for hiding external water drainage pipes.

The following table provides a summary of the current CityScape H-Balcony Planter Range. However, variations of these sizes are available upon request.

Product Name	Product Number	Height	Width (Length)	Depth	Feet height options
1000 Series H-PLANTER-5050	7060.0.100.050.050	1000	500	500	10,25
1000 Series H-PLANTER-10050	7060.0.100.100.500	1000	1000	500	10,25
1000 Series H-PLANTER-15050	7060.0.100.150.500	1000	1500	500	10,25
1000 Series H-PLANTER-20050	7060.0.100.200.500	1000	2000	500	10,25
1000 Series H-PLANTER-6060	7060.0.100.060.060	1000	600	600	10,25
1000 Series H-PLANTER-12060	7060.0.100.120.060	1000	1200	600	10,25
1000 Series H-PLANTER-18060	7060.0.100.180.060	1000	1800	600	10,25
1000 Series H-PLANTER-24060	7060.0.100.240.060	1000	2400	600	10,25

Satu Bumi also offers additional water proofing and drainage regulation options which are entirely dependent on the customer's requirements. These include bitumen-membrane internal water proofing and drainage risers.

The CityScape H-Balcony Planters have been designed in terms of size and shape to be mixed and matched with the Rectangles, Squares, U-Planters, Cylinder and Bowls in the CityScape Range.
