

Mobius Bench

Three level bench shaped as the recycling logo

A triangular-like shaped bench with each edge designed at a different height, providing tailored comfort for children of different ages and adults alike. To be more precise, the bench is actually shaped as a Mobius, a surface with only one side and only one boundary component. The shape of the international recycling logo is shaped like a Mobius. To illustrate this physical wonder, balls are attached to the side of the bench. The child will slide the balls along the bench and surprisingly observe that a ball starting on the outer side of the bench will complete the circle on the inner side, concluding that the bench is indeed one-sided.
