

# Simon Says

Challenge yourself playing “Simon Says” on a shaky platform, loosely balanced by unequally weighted objects

A mushroom shaped platform stabilised solely at its centre and therefore tilts to the sides when stood upon. The edges of the platform are connected with ropes to several pegs and pulled by the weight of cubic boxes. All boxes are evenly shaped however weighing differently, illustrating the concept of specific weight. A set of 4 large electric buttons mounted on top of the platform, is utilised to playing the legendary children’s game of Simon Says. The children hop on the platform and play the game with their feet, sharpening the memory skills while overcoming the non-balanced platform. All electric components are operated by transforming solar light to energy.

## Specification

|                |                         |
|----------------|-------------------------|
| Age            | 6+                      |
| Accomodates    | 3                       |
| Area           | 19.6 Sq m   211.3 Sq ft |
| Overall Height | 1.0 m   3.28 ft         |

450-SS

Patent pending

|                     |                  |
|---------------------|------------------|
| Overall Weight      | 100 Kg   220 lbs |
| In Ground Depth*    | 0.8 m   2.62 ft  |
| Installation Time** | 2 Hours          |

\*Including concrete foundation \*\*Not including concrete foundation

## Laws of Physics

Specific weight • Centre of mass • Balance • Tension
