MOULDED WITH LOVE · MOULDED WITH LOVE · MOULDED WITH LOVE

ABOUT US

Italian for serene, calm, clear, still & quiet. In addition to these qualities are function, beauty, harmony & emotions - This is the philosophy behind our brand.

Products of everyday use, enriching lifestyles, removing boundaries between indoors and outdoors, objects that we feel one with. Sereno's eye-catching designs whether a sculptural planter or seating are conceived to be highly functional as well as beautiful, and attest to our mastery of new synthetic polymers and moulding processes. Significantly, these high quality weather-resistant designs enable a natural and almost seamless visual progression from indoor to outdoor spaces, thereby considerably extending living environments. Sereno products are functional and aesthetic, innovative and practical with a clean design philosophy.

Through its product line, Sereno offers myriad ways of experiencing nature & light. Ways, which ask us to stop for a bit, relax, sit, breathe & enjoy the moment.

Each Sereno product radiates light, and coupled with a wide array of colours and finishes, these indoor and outdoor pots become one with nature and its architectural surroundings.

AWARDS

YUVRAJ SINGH AHUJA

An architect by qualification and a moulder by profession, Yuvraj started SERENO - a product line of indoor & outdoor lifestyle products complementing nature in 2009.

A strong believer in everlasting design and its function, he enjoys taking the product through its complete life cycle - from conceptualisation to its final execution.

THE TEAM

SATISH GOKHALE

A prolific industrial designer and an alumnus of the National Institute of Design (NID) and with over 35 years of experience, Satish has an innovative approach to converging materials and form together with function.

He was awarded the Best Indian Designer by BusinessWorld and NID, and has won many accolades both in India and abroad. Satish is on the advisory boards of several reputed design schools, and also part of the India Design Council.

SUPER LIGHT WEIGHT

Sereno planters are lightweight yet sturdy enough to take the weight of soil and large plants. Special 100% recyclable polymers are hand-picked from world over to manufacture these planters. One piece seamless product, no joints, no peeling, no fading & homogenous construction makes Sereno the ideal home for your plants.

Piatto 7560 SW Sicilian Grey

PIATTO SW

Piatto 7835 SW Dholpur Beige

Piatto 7560 SW Dholpur Beige

PIATTO (Pi-aa-toh)

These versatile planters have been inspired from the shape of a dish or a bowl, using hand textures, like carved stone bowls and a simple, unobtrusive flow that already has a classic design sensibility to it. These planters are deep enough to hold large plants and flower groupings. The scattered line texture creates the illusion of beautiful stone planters of ancient times.

UP TO 85% LESS ENERGY

Our entire product range uses only LED lighting. Why? Because LED is the most energy-efficient lighting there is. It uses significantly less energy compared to conventional or CFL bulbs and lasts much longer.

CHIARA

Chiara Slim 100 Polar White

Left to Right: Chiara Slim 100 Panther Black, Chiara 60 Panther Black

CHIARA

(key-aa-ra)

Means 'clear' in Italian.

The design philosophy behind this product is unlike any other with its elegance and charm. The Chiara planter gives the sense of slowly being hand carved out from a solid rock while it stands tall. It is breathtaking when illuminated with the light emphasising the planter's every detail. These half body planters have won several national and international awards.

ELENA (ae - lee - na)

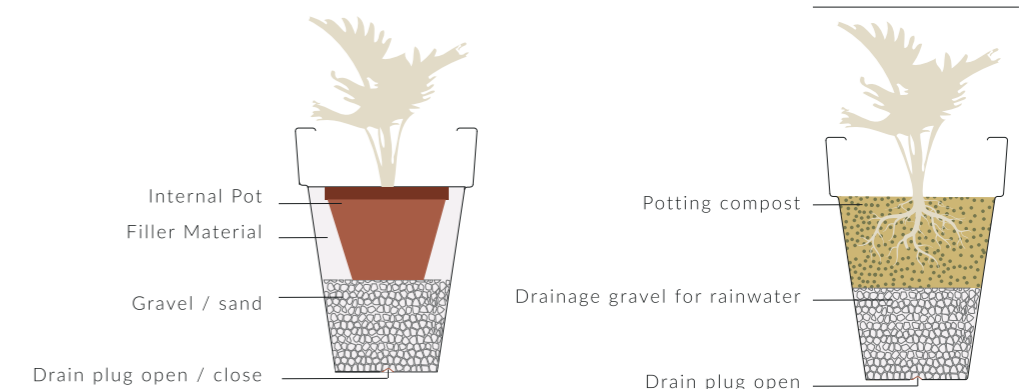

Italian & Spanish form of Greek Helene, means "torch". The shape of the Elena planter has been derived keeping the visual of a flame in mind. A top shoulder, simple lines with a provision to either directly fill the planter with soil or use potted plants. Play of light comes into effect when the planters are illuminated from within. These half body planters are great for outdoors as well as indoors. It has a drain which can be locked to put internal pots. As it is taller and narrower in diameter at the bottom, it is more economical with space but just as impressive.

PIERO (Pee-ae-ro)

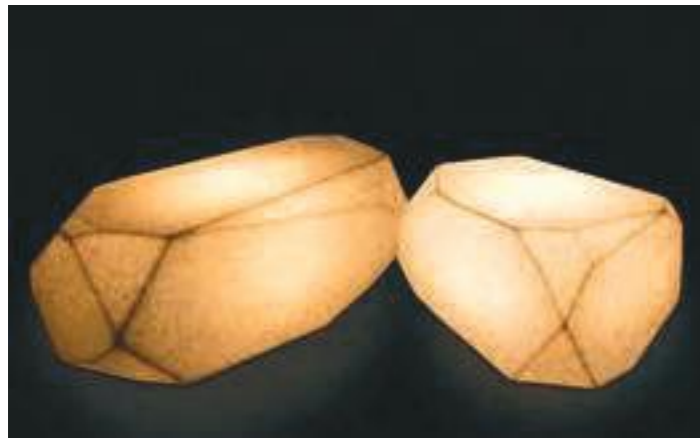

Piero means "stone". Designed keeping versatility as its primary function, the Piero can be used as seating or a table. It is simply beautiful and elegant in all its forms – solid colours, stone textures or illuminated. Place it around lawns, courtyards, gardens, terraces, pool side, or even indoors – it has no sharp edges and is very comfortable to sit on. The Illuminated version comes with an inbuilt rechargeable battery, making it easy to place without the worry of wires and plugs.

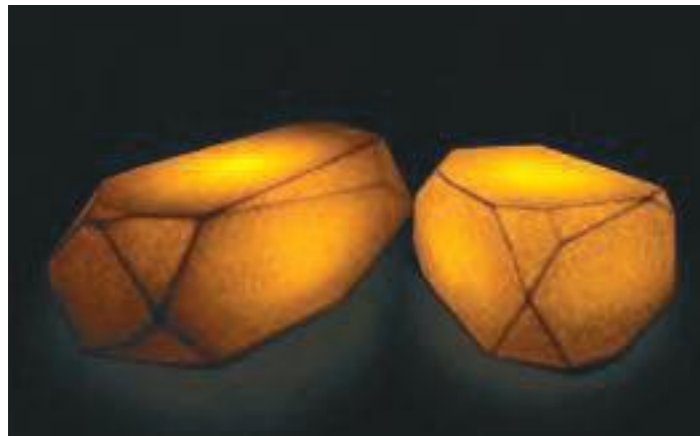

Pieros come with in-built Li-Ion rechargeable battery and chargers. RGB mood lighting models are supplied with RF remote to change colours.

Top to Bottom: ENEA in Baltic Brown, Milano Grey, Sicilian Grey

ENE A

Clock wise: Baltic Brown, Milano Grey, Lava Black, Sicilian Grey

ENE A

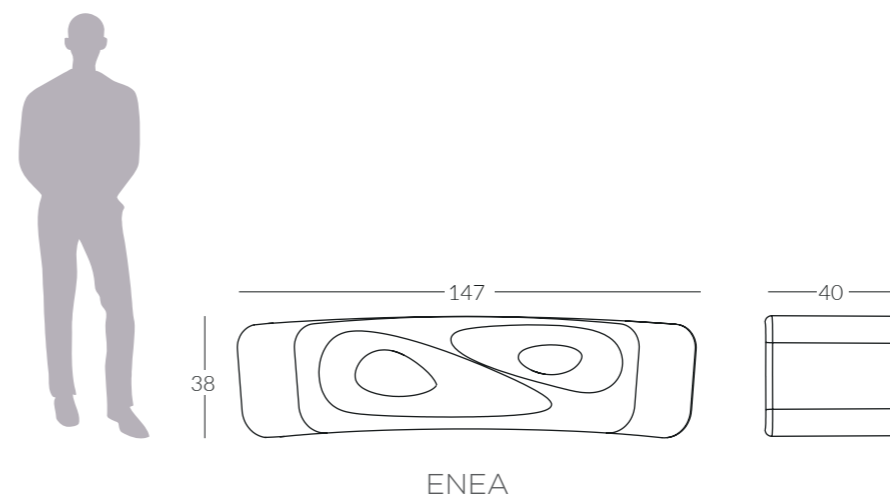

(en-eya)

Inspired from the Chinese philosophy of the Yin & Yang, where apparently contrary forces are actually complementary, interconnected, and interdependent in the natural world.

Shadow cannot exist without light. The yin-yang shows a balance between two opposites with a part of the opposite element embedded in each other.

This beautiful crafted seat can be seen holding these elements perfectly within itself.

Triangolo

Ovale

OVALE · TRIANGOLO · ESAGONO

The Lume series comprises of Ovale, Triangolo, Esagono and the award winning Seme. All these floor standing lamps are over 2 meters tall and create a striking effect of light and shade that is one of its kind. Depending upon the model, Lume can be placed indoor or outdoor as these are awe inspiring theatrical objects. Options include single colour, dual colour or RGB mood lighting. The white matte of the polymer lamp spreads the light softly, creating a contrast with the deep black hammer effect of the base structure. The lamps come with a dimming effect to choose your perfect light mood.

SEME

(say-may)

There is a magical seed shrouded in legend, known as Entada gigas. The seeds of this pan tropic represents life, hold promises of the future and memories of the past.

Our Seme lamp is inspired from this magnificent giant seed, giving a feeling of climbing the skies gracefully and glowing with a quiet energy. It uses a soft ambient light that brings life to interiors and exteriors. Available either with floor or ceiling mounting options.

POLYMER

Lume series is made from frost resistant, 100% recyclable PolyEthylene (PE). It is UV stabilized and impact resistant. Lume can withstand temperatures from - 30 Deg C to + 70 Deg C.

GALVANISED AND POWDER COATED STEEL

Its easy to fix Lume series on the helix screw for beach applications. Just rotate the helix screw into the beach and bolt the Lume to it. This way you can enjoy bright luminescence of Lume close to river or sea.

EASY TO HANDLE

Lume is easy to handle despite its length of 2 meters. The indoor version weighs only Kg. Always lift from the base to reposition.

STABILITY

Lume has a low center of gravity as nearly 80% of the weight is at the bottom. This prevents any accidental tripping of the base.

IN GROUND FIXING

For in ground fixing, a GI collar tube is provided to fix into the concrete block. On top of this the outdoor version of Lume can be bolted.

TEMPORARY FIXING

A plate and anchoring bolts are supplied for temporary installations on lawns for special events. These cause min damage to grass or soil.

CLEANING

Always use a mild detergent usually found in your kitchen to give Lume a scrub if required. Use soft cotton and lint free cloth.
